31 May 1956

25X1A9a

MEMORANDUM FOR:

25X1A5a1
SUBJECT: Connection with

25X1A5a1
I believe the arrangements set forth in your memorandum of 28 May will in practice satisfactorily provide for any question of conflicts of interest. In connection with your paragraph 3 about security preventing a specific provision in the records of the [REDACTED] I did not have in mind actual reference to CIA contracts. My thought was that the records evidencing your relation with the Company would indicate that you had no specific responsibility for the Research Division as a whole, or more particularly for determining what projects it would undertake. If this is the present state of the record, I believe it will suffice.
